

MEMORANDUM

To: Data Protection Officer, ShopEasy India Pvt. Ltd.

From: Privacy Compliance Analytics Team

Date: June 2026

Re: Q2 2026 Privacy Compliance Audit Findings

Classification: Confidential

EXECUTIVE SUMMARY

Our automated privacy compliance review of 10,000 ShopEasy India customer transaction records identified 11,879 violations across 6 compliance dimensions. The overall violation rate of 118.79% (multiple violations per record) indicates systemic compliance gaps requiring immediate remediation. The most critical finding is 6,348 duplicate transaction IDs (63.48% of records), followed by 3,991 data retention breaches (39.91%) where customer data has been held beyond the permissible 180-day threshold — a direct violation of GDPR Article 5(1)(e) and DPDP Act Section 8. Additionally, 214 records confirm vendor data sharing without customer consent, exposing ShopEasy India to regulatory penalties of up to ₹250 crore under the DPDP Act 2023.

KEY FINDINGS

Finding 1 — Retention Policy Breach (CRITICAL)

3,991 records exceed 180-day retention limit.

Regulation: GDPR Art.5(1)(e) | DPDP S.8

Action: Immediate deletion of overdue records.

Deadline: 7 days.

Finding 2 — Consent Violations (CRITICAL)

734 records processed without valid consent.

214 records shared with vendors without consent.

Regulation: GDPR Art.6 | DPDP S.6

Action: Halt processing. Obtain fresh consent.

Deadline: Immediate.

Finding 3 — Children's Data (HIGH)

307 records for users under 18 lack parental consent.

Regulation: GDPR Art.8 | DPDP S.9

Action: Suspend accounts. Contact guardians.

Deadline: 14 days.

RECOMMENDED NEXT STEPS

1. Immediately purge all records exceeding 180-day retention threshold.
2. Suspend vendor data sharing for all records where consent_given = False pending consent remediation.
3. Execute Data Processing Agreements (DPA) with all third-party analytics vendors per GDPR Art.28 and DPDP Act S.8.
4. Implement automated consent verification gate in data ingestion pipeline to prevent future violations at source.
5. Conduct follow-up DPIA for vendor data sharing process — initiated separately (see: DPIA_ShopEasy_VendorSharing.pdf).

Full violation log and audit trail available
in PrivacyGuard Dashboard (PrivacyGuard_Dashboard.pbix).
Next scheduled audit: September 2026.
